"Success will never lower its standards to accommodate us. We have to raise our standards to achieve it."

India is going through humongous socio-economic and socio-political changes and is poised to become a super power in the next couple of decades. To see her through to this ultimate goal, she will need future citizens who are empowered with the requisite learning. I am pleased to state here that our goals and vision are in total synchronicity with that of our nation and it will be our unstinting endeavor to equip our students with global standards of learning so that our children become the masters of our destiny.

The commitment of DAV to provide superior quality education has only deepened and grown over the last 138 years developing leaders who have proved their mettle in all walks of life.

DAV aims to create a supportive and inclusive environment where gifted and talented students are encouraged to explore their potential and achieve their personal best in all aspects of school life. Students will be challenged and engaged through authentic learning opportunities that inspire them to develop creativity, confidence and resilience to become independent and ethical life long learners.

Education is not merely the acquiring of a degree; it is an enduring process that should have an effect on your thoughts and actions, even after you graduate. Your education can become a leadership training exercise only when you are an active participant in the process of opening your mind to knowledge, experiences and ideas. "Education is our passport to the future, for tomorrow belongs to the people who prepare for it today."

SPORTS

ECO & SOCIAL SCIENCE CLUB

Eco Club

"SAVE THE Mother Earth - SAVE YOUR GENERATION, BE EVER Clean n Green - NEVER POLLUTE."

Tarumitra, meaning "Friends of Trees" in Hindi and Sanskrit, is a student movement to protect and promote a healthy environment

on Earth.

Science club is a better forum for the students to comprehend their scientific aspiration and fulfill their pursuit in which they don't get opportunities within the syllabus framework. Students will get opportunities for R & D, Creativity and Innovation. Lets us trigger interest among the students in Science. To encourage, motivate and equip the students in

applications of Science and its interface with society. It enables students to Conduct Experiments, Designing innovative science project/Models etc.

SAFE AND ANNAPURNA CLUB

Safe learning atmosphere or environment is what every child is entitled to obtain from school administration. But today, the question comes up

"Are we prepared enough to give our student a safe learning environment or are we still waiting for a wakeup call?"

In past we have experienced our nation has gone through the wave of losing young school children in natural and manmade disasters within school premises, many of which would have been averted by simple prevention, mitigation and preparedness measures.

Children are a dynamic and formidable force of change and our supporters in creating awareness in the community. They can contribute in an exclusive manner with energy and vision to find local solution. School children should be encouraged to take up tasks which make them realize their importance as essential stakeholders in the process of change.

LITERARY CLUB

The English Literary Associations aim at providing a conducive environment and platform where students get connected with the language and feel the importance and its gravity resulting into impending immense confidence within and sparking covert and overt behavior. A passion to acquire higher order skills such as creative communication through the media of prose, poetry, drama etc. All students from class I are the constituents of these associations. These activities are well integrated with the curriculum to help students in higher academic achievements.

The Hindi Literary Association aims at creating an open assertiveness toward Hindi as a language which is the pride of our country and acquire proficiency of communication in it. It immensely inculcate a sense of pride about an Indian language and understands the importance of Hindi.

The Sanskrit Club is an initiative to revive and promote the bedrock for the growth of a large part of the glorious Indian Civilisation, the Sanskrit language. Knowledge of unknown proportions resides in texts composed in this ancient language, be it the Vedas, the Puranas, the Tantras, or the treatises by other Indian saints and writers.

MUSIC & DANCE CLUB

According to Plato -

"Musical training is a more potent instrument than any other, because rhythm and harmony find their way into the inward places of the soul."

"Music is the movement of sound to reach the soul for the education of its virtue."

The ripples of Music, composed in certain rhythms expresses people's feelings and enlighten the soul and enable one to reach to God. Music is essential for everybody. The earlier a child is exposed to music, the more advanced their spatial reasoning skills will be.

The left side of the brain is better developed with music, and songs can help imprint information on young minds. Even when performing with sheet music, student musicians are constantly using their memory to perform. The skill of memorization can serve students well in education and beyond. Learning music promotes craftsmanship. Students who practice with musical instruments can improve their hand-eye coordination. Just like playing sports, children can develop motor skills when playing music. Learning to play pieces of music on a new instrument can be a challenging, but achievable goal. Students who master even the smallest goal in music will be able to feel proud of their achievement.
